PROJECTS

Allowlist [↗](#)

A tool that allows creator to get whitelisting for their upcoming project

03/2022 - 2022

W3Commerce [↗](#)

08/2022 - present

Buy together, save together with us. A social platform where people can buy products socially more friend buy things together price goes cheaper using protocols like tableland, steamer, UnstoppableDomains

Web3 job board [↗](#)

A decentralised Job board

01/2022 - 01/2022

A decentralised web3 job board would allow users to post and search for jobs directly on the blockchain. Eliminate the need for centralised job boards, which often charge fees for job postings and can be subject to censorship.

Tribes [↗](#)

Tribes allows you to join communities and find people with common interests

03/2022 - 03/2022

Web3-Tribes is a project utilizing the tribe's module from Decentology's Hyperverse. This project aims to allow users to join different web3 tribes (communities) and gain access to content only visible to those in that specific tribe.

PROFESSIONAL EXPERIENCE

Full stack developer

Pudgy Penguin [↗](#)

09/2022 - present | Remote

At Pudgy Penguin, I am responsible for building the core products that the company relies on. This includes managing the backend side of things and developing new features as a team player.

I have also helped to improve the company's backend systems, which has resulted in a more stable and reliable platform for users.

Full stack web3 developer

Lords of the Lands | Metaverse [↗](#)

06/2022 - 09/2022 | Delhi, India

I used to develop Smart contracts for metaverse Land NFT

Backend dev - where I am responsible for building scaleable infrastructure

and spend my time building LandLords Backend how to render Map and how to mint in real-time.

Self Employed Co-founder

Self [↗](#)

12/2020 - 09/2022 | Remote

It's my first startup I failed and I learned.

We are building the Gym management software because we believe that it is a cheaper and faster solution than the existing solutions on the market.

Our software is designed to make the process of managing a gym easier for both the owner and the staff, and it is available at a fraction of the cost of the other solutions on the market.
